

NUMBER BONDS TO 100

FINISH 😊	-50	30+	100+	-80	10+	-90	←
→	-20	70+	-10	30+	-50	20+	↑
↑	10+	-80		-30	80+	-10	←
→	-80	90+	-60		-10	80+	↑
↑	70+	-40	90+	-20	60+	-70	←
→	-20		-80	50+	-70	20+	↑
↑	90+	30+	-20	-50		-90	←
→	-40		60+	30+	80+	40+	↑
↑	60+	-30		20+	-70	-60	←
START →	90+	-30	-100	80+	-10	50+	↑

Throw the dice to start the game - the player who throws the highest number starts. Move your counter along the board and when you land on your square you must write out the calculation, for example if you land on a square with a 60+ in it, then the addition will be $60 + 40 = 100$, if you land on a square with -50 in it, then the subtraction will be $100 - 50 = 50$. If you land on a square with an arrow you miss a turn. If you land on a picture square you have to count in fives from 0 to 100.
