Addition fact families

**Addition Fact Families**

Complete the calculations to match these number shapes.

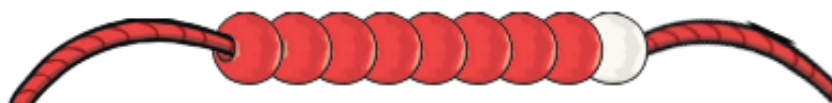

$$2 + \underline{\quad\quad} = 7$$

$$\underline{\quad\quad} + 2 = 7$$

$$7 = \underline{\quad\quad} + \underline{\quad\quad}$$

$$\underline{\quad\quad} = 2 + \underline{\quad\quad}$$

Write 4 addition calculations to match the beads on this string.

## Addition Fact Families

Which is the odd one out in each group of calculations?

$$2 + 3 = 5$$

$$3 + 2 = 5$$

$$3 = 5 + 2$$

$$5 = 2 + 3$$

$$7 + 1 = 8$$

$$8 + 1 = 7$$

$$8 = 1 + 7$$

$$8 = 7 + 1$$

$$2 + 1 = 3$$

$$1 + 2 = 3$$

$$3 = 1 + 2$$

$$1 = 2 + 3$$

$$4 + 10 = 6$$

$$6 + 4 = 10$$

$$10 = 4 + 6$$

$$10 = 6 + 4$$

Can you explain what is wrong and correct the mistakes?
